

# The Fort Wayne Sentinel.

SATURDAY, NOVEMBER 3, 1849.

**The News in the Episcopal Church**  
Will be rented for the ensuing year, on Monday next, Nov. 5th, at 7 o'clock in the evening, at the Church. All persons wishing seats are respectfully invited to attend.  
Fort Wayne, Nov. 3, 1849.

**Proposed Improvement of the Yellow River Road.**

We are requested to give notice that a meeting of the citizens of Whitley, Kosciusko, and Allen counties will be held at the house of Isaac Taylor, in Union Township, Whitley Co., on Saturday next, the 10th November, to adopt measures for planking some five or six miles of the Yellow River Road,—the place known as the Abute Woods.

This is a work that is much needed, and would probably add more to the facilities of travelling, and be the means of bringing more produce to Fort Wayne than any work of similar extent which could be constructed. The remainder of the road between this place and Warsaw, we are informed, is tolerably good, while in the place proposed to be improved it is almost impassable. A plank road for 5 or 6 miles could not cost more than \$8,000 to \$10,000, and would doubtless be a profitable investment. The facilities it would afford the farmers of Kosciusko in bringing their produce to market would be worth more to them than the cost of the improvement, and would at the same time by making them accessible to market, greatly enhance the value of their farms.

We trust our citizens will feel a proper interest in the matter, and take steps to have Allen County fully represented at the proposed meeting.

**Lima Plank Road.**—On Wednesday last, in company with the President and Directors of the Lima Plank Road, and several other citizens, we took an excursion on the road as far as Huntertown. We have, as our readers are aware, always been a strong advocate for this kind of road, believing it better adapted to the wants of this community than any other; and our trip has fully confirmed our opinion. Nothing can be more pleasant and agreeable than to travel on such a road, and to such as have been used to the jolting and jolting of our common roads, the ease and rapidity of travelling on the plank road is absolutely delightful. The Lima Road is a single track, the planks eight feet long, and the earth gaged on one side of an equal height with the plank for the purpose of turning off on passing other teams. Many apprehended that this

road would be torn up and rutted

so soon after being laid. These fears, we were pleased to notice, were entirely groundless.

There is not the least difficulty even now while the road is new, and when the earth becomes settled and solid it will be still better. We would advise those who are in the least sceptical on the subject, and all who wish a pleasant ride, to take trip on the Plank Road.

A ride to Huntertown, on this road, is just about far enough for a pleasure jaunt, and those who are in search of recreation, as well as the travelling community generally, will find the Hanna House at Huntertown one of the best regulated and most comfortable Hotels in the country, and its landlord (our old friend J. Bayless Hanna) one of the most accommodating and clever fellows in creation.

**WHOLESALE SWINDLING.**—We learn by the Lafayette Journal, that certain produce operators have been buying up Wheat in that region and paying for it in notes on the Susquehanna (Pa.) Bank. It is estimated that from ten to twenty thousand dollars of the worthless trash is now in the hands of the farmers of Tippecanoe Co., given to them in exchange for their produce. The Bank having "fulfilled its destiny," has now failed, and the notes in the hands of the unsuspecting farmers are entirely worthless. The Journal does not give the names of the parties engaged in this infamous swindle. They ought to be held up to the scorn and execration of every honest man in the community; and if the Tippecanoe Circuit Court will not take cognizance of their offence, the case should be forthwith referred to the impartial tribunal of Judge Lynch, who would doubtless administer ample justice to the offenders.

**T. Thompson** is his Bank Note Reporter of the 25th ult. cautions the public against receiving the notes of this *Susquehanna Bank*. He also thinks it would be better to "refuse or change off for safer money" the notes of the *Salisbury Bank*, Maryland.

*Exchange Bank*, Washington, D. C.

*State Bank* at Morris, New Jersey.

*Jame's Bank*, Jamestown, N. York.

**THE TELEGRAPH.**—Much complaint has been made of the irregularity of the telegraph on this line, and the frequent interruptions which have been experienced in communications. A combined attempt appears to have been made in several places along the line to fasten the blame of these interruptions on the office at this place. But the operator Mr. G. W. Wood, has, in the last times, fully exonerated himself from the charge, and shown that every thing has been done here that could be, to keep the line in working order, and if there has been remissness on the part of any of the operators, it has been at some point than Fort Wayne.

By a letter from Mr. Delano, the superintendent of the line, it appears that the prime cause of the trouble is now ascertained to be in the earthen insulators which were used on this line instead of glass. These insulators do not bear exposure to the weather, and when the glazing cracks off they are of little or no service. Mr. Delano writes that they will be replaced by glass insulators as early as prac-

**POPPLE SUNK.**—The Propeller Globe, with a cargo valued at one hundred thousand dollars, sunk near point Abano. The loss on cargo was covered by insurance. The boat was insured at \$15,000.

In the list of those who had goods on board, we notice the names of Messrs. Townley and F. & J. Nirdlinger of this city.

## Indianapolis Sentinel Papers.

The State Sentinel will be published Tri-Weekly during the coming Session of the Legislature, and furnished to subscribers for \$1.00 per copy. The Weekly, during the session, 50 cents.

The State Journal will be issued Daily at \$1.00 per copy for the session, or 50 cents for the Weekly.

Those who wish to obtain full reports of the proceedings of the Legislature would do well to subscribe for one of these papers. The money might be forwarded by the Representatives or Senators.

**Maine Election.**—The Augusta (Maine) Age, says that complete returns of votes for Governor from all the towns and plantations in the State, show the election of Dr. Hubbard, the Democratic candidate for Governor, by a majority of 1,254 over all other candidates. The House will stand 88 democrats to 63 opposition—relatively 6 better than last year. Well done for Maine.

**VERMONT.**—The Legislature of Vermont is now in session at Montpelier. The House chose a Whig Speaker by 37 majority, and the Whig officers were re-elected in the Senate by 14 majority. The vote for Governor was counted, when it was found that Governor Coolidge, the Whig candidate, lacked 36 votes of an election by the people. The two Houses then went into joint ballot for Governor and Gov. Coolidge was elected by a majority of 51. The other Whig State officers were elected by a similar majority.

**THE CANAL** is now in operation to Terre Haute, and boats laden with produce from that place have passed through here for Toledo.

**Voting Viva Voce**—The New Albany Ledger recommends that the law be so changed as to vote viva voce for U. S. Senators. We second the recommendation. If the Legislators were obliged to vote in that manner in all elections, so that their constituents could see what they did, a stop would be put to much of that disgraceful bargaining and intrigue, which has on some former occasions been witnessed at our State capital. If any member fail to reflect the wishes of his constituents, and violate party fealty, his bad faith and violated pledges ought to be known to his constituents, and his dishonesty exposed.

**Information Wanted**, most anxiously of one George Pratt, Newspaperman in New York, who is indebted to the Goshen Democrat to the amount of Eighteen Dollars for the advertising of the Married Woman's Private Medical Companion and a highly exciting essay on Child-birth! Should this meet his eye he will please fork over, and thus save the feelings of some of our hungry creditors.—*Goshen Democrat*.

**WE HAVE** an amount against the same gentleman (who appears to be a sort of "Confidence-Man" on a small scale) which we should be mighty pleased to have paid. Advertisers in New York would confer a favor on us by sending their advertisements through the hands of Mr. V. B. PALMER, Tribune Buildings, our sole agent in New York.

**CALIFORNIA GOLD.**—The total amount of California Gold received at the Philadelphia Mint up to the present time is about \$3,100,000. The whole amount now at the Mint will be coined in about three weeks.

**THE AMERICAN ART UNION.**—This is an institution in New York designed for the promotion of the fine arts in the United States. Every subscriber of Five Dollars becomes a member for the year. The funds are annually expended in the production of one large splendid engraving, and a series of smaller ones, and in the purchase of paintings, sculpture medals and other works of art.

Every member is entitled to a copy of the engravings, and all the pictures, sculptures, &c., purchased are annually divided by lot among the members, who thus receive the full value of their subscriptions. The Rev. J. S. LARGE is honorary secretary for this county, and will receive subscriptions.

We give below an extract from the address of the officers of the institution, which more fully explains its objects.

**TO THE FRIENDS OF THE AMERICAN ART-UNION.**

The current year of the institution is drawing to a close. It is of the highest importance that all who intend to subscribe should do so immediately in order that the committee may make a judicious investment of the receipts.

We have set forth in another part of this number the good which the society has already accomplished. We trust that this consideration alone will induce the patriotic and cultivated among our citizens to lend themselves at once upon the list of members. Every one must see how desirable it is that the number of subscribers should not at least fall off.

The Managers, thus far, have no reason to expect such a result, but every thing must depend on the promptness and liberality of the friends of Art. Although there is no object in the list of works now offered for distribution, so costly as the four pictures of the "Voyage of Life," it is, notwithstanding, true that the chance of obtaining a painting of the first class is much more favorable the year than it was the last. The number of high cost pictures will be greater. The character of all the works to be distributed will be higher.

The incitements, in every way for becoming a subscriber, are greater superiority now to those before the year past. Among the pictures to be drawn for is the excellent work of Mr. Gray's "The Wages of War," the cost of which was \$1,500. The Attainer of Stratford," by Lentz, painted for the commission for the Society, for \$1,000, and M. Huntingdon's "Mary at the Sepulchre," the price of which was \$1,200. There are eight other pictures, by Durand, Gray, White, Daugherty, Linnæus, Wenzler, Edmonds and Rothwell, the average cost of which was about \$600. There are very many others, at prices varying from \$200 to \$500 and numerous works at smaller prices, some of them beautiful and highly finished sketches by the most distinguished artists. New paintings will be constantly added. Let it be remembered also that twenty copies in bronze, from a superb statuette by Brown, representing a "Young Indian Hunter," and two hundred and fifty bronze medals of Col. Trumbull, will be included in the distribution. Each member will also be entitled to a choice engraving on steel by Smilie from the second and most excellent of the series of the "Voyage of Life," and a set of six outines by Darley, illustrating "The Legend of Sleepy Hollow," and finished in the same style as the Rip Van Winkle, which has been much admired. Residents of New York are requested to pay their subscriptions at the offices of all other nations. Clayton must take this matter up, and he will have on his hands a quarrel

**Dependency of Cuba on Spain.**—The London Times launches a terrible arraignment against the United States for supposing designs upon Cuba—inimating that England has the best right to the island for money she lent to Spain; but the European Times brings forward the following important fact as a settler for all parties:

"We are glad to find that President Taylor is not disposed to sanction a mighty act of spoliation to be committed by a band of mercenary adventures. Throughout the whole of these doings, it is carefully kept out of view that the famous 'old Whitey' of Gen. Taylor, N. O. Crescent.

Another Job for Clayton.—There is a rumor at Washington, says the Albany *Atlas*, that Russia has determined to close the Black Sea to the commerce of the United States, and of all other nations. Clayton must take this matter up, and he will have on his hands a quarrel

**France, England, Mexico, Nicaragua,** and Canada, Mosquito, Russia, Cuba, and Canada, and

**Propeller Sunk.**—The Propeller Globe, with a cargo valued at one hundred thousand dollars, sunk near point Abano. The loss on cargo was covered by insurance. The boat was insured at \$15,000.

In the list of those who had goods on board, we notice the names of Messrs. Townley, and F. & J. Nirdlinger of this city.

## FOREIGN NEWS.

### ARRIVAL OF THE EUROPE.

The Europa arrived at Halifax on the 25th with Liverpool dates to the 13th.

**GRAIN MARKET.**—Indian Corn sold 28 to 30¢ for white; 27 to 28¢ per quarter for yellow. Flour not much altered in value—Western Canal and Philadelphia 23 1/2¢; New Western 19 to 21¢; Ohio 24 to 25¢. No Indian meal in market.

American cured provisions in demand; sales large, reaching 100 tons. Low priced mess pork in demand for shipment to Ireland at foreign rates. Little doing in cheese.

Of the pending decision of the Emperor of Russia, upon appeal made to him respecting extradition of the Hungarian refugees, nothing definite can be arrived at until the resolutions of the Emperor and his Imperial Council, shall be made known. The Emperor's reply was expected to reach the Turkish Capital about the 10th of October. Apprehending his decision might be a declaration of war, the Porte was extremely impatient to learn the effect produced upon the cabinets of London and Paris, by the bearing of their representatives.

**Moscow.**—The Augsta (Maine) Age, says that complete returns of votes for Governor from all the towns and plantations in the State, show the election of Dr. Hubbard, the Democratic candidate for Governor, by a majority of 1,254 over all other candidates. The House will stand 88 democrats to 63 opposition—relatively 6 better than last year. Well done for Maine.

**THE AMERICAN ART UNION.**—The New American Art Union will be in a few weeks distributed by lot to its members from 60¢ to 100¢, magnificient paintings, splendidly framed; besides 20 bronze statuettes, several hundred medals, and other valuable works of art.

One can have a State in the Union whose citizens are avowedly Mahomedans or idolaters, adhering to the Mahomedan or idolatrous form of doctrine and worship? And if this question should be answered in the negative, how stands the case with regard to a community of Mormons, who certainly cannot well be called Christians?

Such objections show but little of the religious or Christian character.—From

of opinion may be safely inferred, as long as reason is left free to combat it. Our form of government gives to all classes of our citizens, but especially to the poor, a wide range of opportunity for self-improvement.

The Mormons have the same political rights as the Christian.

The Whigs of Iowa, voted the whig ticket to a man. As well might the democrats object to their admission, on a difference of political belief, as for the Commercial to raise its objection because the Mormon faith teaches those who hold to its doctrines, to worship in a form different from the majority. Carry out the doctrine of the Commercial, and the next step will be, to proselyte all Christians.

SATURDAY, NOVEMBER 3, 1849.

The Pew in the Episcopal Church  
Will be rented for the ensuing year, on Monday next, Nov. 5th, at 7 o'clock in the evening, at the Church. All persons wishing seats are respectfully invited to attend.  
Fort Wayne, Nov. 3, 1849.

## Proposed Improvement of the Fort Wayne Road.

We are requested to give notice that a meeting of the citizens of Whitley, Kosciusko, and Allen counties will be held at the house of Isaac Taylor, in Union Township, Whitley Co., on Saturday next, the 16th November, to adopt measures for planking some five or six miles of the Yellow River Road,—the place known as the Albion Woods.

This is a work that is much needed, and would probably add more to the facilities of travelling, and be the means of bringing more produce to Fort Wayne than any work of similar extent which could be constructed.

The remainder of the road between this place and Warsaw, we are informed, is tolerably good, while in the place proposed to be improved it is almost impassable. A plank road for 5 or 6 miles could not cost more than \$8,000 to \$10,000, and would doubtless be a profitable investment. The facilities it would afford the farmers of Kosciusko in bringing their produce to market would be worth more to them than the cost of the improvement, and would at the same time by making them accessible to market, greatly enhance the value of their farms.

We trust our citizens will feel a proper interest in the matter, and take steps to have Allen County fully represented at the proposed meeting.

**Lima Plank Road.**—On Wednesday last, in company with the President and Directors of the Lima Plank Road, and several other citizens, we took an excursion on the road as far as Huronport. We have, as our readers are aware, always been a strong advocate for this kind of road, believing it better adapted to the wants of this community than any other; and our trip has fully confirmed our opinion. Nothing can be more pleasant and agreeable than to travel on such a road, and such as have been used by the jutting and joining of our common roads, the ease and facility of travelling on the plank road is absolutely delightful. The Lima Road is a single track, the planks eight feet long, and the earth gashed on one side of an equal height with the plank for the purpose of turning off on a passing other teams. Many apprehended that this would be a great impediment to turning off, but the clay part of the road was so cut up and rutted that it was soon turned off on it without danger of being stalled. These fears, we were pleased to notice, were entirely groundless.

There is not the least difficulty even now, while the road is new, and when the earth becomes settled and solid it will be still better. We would advise those who are in the least sceptical on the subject, and all who wish a pleasant ride, to take a trip on the Plank Road.

**Exp. Information Wanted.**—most anxious of you, George Pratt, Newspaper Agent in New York, who is indebted to the Goshen Democrat, to the sum of Eighteen Dollars for the advertising of the Married Woman's Private Medical Companion and a highly exciting essay on "Child-Birth!" Should this meet your eye he will press fork over, and thus save the feelings of some of our hungry creditors.—Goshen Democrat.

**EW.**—We have no amount against the said gentleman (who appears to be a sort of "Confidence-Man" on a small scale) which we should be mighty pleased to have paid. Advertisers in New York would confer a favor on us by sending their advertisements through the hands of Mr. V. B. PALMER, Tribune Buildings, our sole agent in New York.

**California Gold.**—The total amount of California Gold received at the Philadelphia Mint, to the present time is about \$2,100,000.—The whole amount now at the Mint will be coined in about three weeks.

**The American Art Union.**—This is an institution in New York designed for the promotion of the fine arts in the United States. Every subscriber of Five Dollars becomes a member for the year. The funds are annually expended in the production of one large specimen engraving, and a series of smaller ones, and in the purchase of paintings, sculpture, medals, and other works of art.

Every member is entitled to a copy of the engravings, and all the pictures, sculptures, &c., purchased are annually divided by lot among the members, who thus receive the full value of their subscriptions. The Rev. J. S. Lang is honorary secretary for this county, and will receive subscriptions.

We give below an extract from the address of the officers of the institution, which more fully explains its objects.

To the Friends of the American Art-Union.

The current year of the institution is drawing to a close. It is of the highest importance that all who intend to subscribe should do so immediately in order that the committee may make a judicious investment of the receipts. We have set forth in another part of this number, the good which the society has already accomplished. We trust that this consideration alone will induce the patriotic and the cultivated among our citizens to endow themselves at once upon the list of members. Every one must see how desirable it is that the number of subscribers should not be less than 100. The Managers, thus far, have no reason to expect such a result, but every thing must depend on the promptness and liberality of the friends of Art. Although there is not one object in the list of works now offered for distribution, so costly as the half-histories of the "Yage of Life," it is notwithstanding true, that the chance of obtaining a painting of the first class is much more favorable the present year than it was the last. The number of high cost pictures will be greater. The character of all the works to be distributed will be high.

The judgments, in every way for becoming a subscriber, are greatly superior now to those before presented. Among the pictures to be drawn for, is the excellent work of Mr. Gray's "The Wages of War," the cost of which was \$1,000. "The Alsatian or Stræford," by Leutze, painted upon a commission for the Society, for \$1,000, and M. Huntingdon's "Mary at the Sepulchre," the price of which was \$1,200. There are eight other pictures, by Durand, Gray, White, Doughty, Jones, Wenzel, Edwards, and Rothwell, the average cost of which was about \$800. There are many others, at prices varying from \$200 to \$500 and numerous works at smaller prices, some of them beautiful and highly finished sketches by the most distinguished artists. New paintings will be constantly added. Let it be remembered, also, that twenty copies in bronze, from the original picture by Brown, representing a "Young Indian Hunter," and two hundred and fifty bronze medallions, each one-half inch in diameter, will be included in the distribution. Each member will also be entitled to a choice engraving selected by himself from the second and most excellent of the series of "Yage of Life," and a set of six engravings by Dwyer, illustrating "The Legend of Sleepy Hollow." This is finished to the same style as the big Van Winkle, which has been much admired. Residents of New York are requested to pay their subscriptions at the rooms, and all others at the offices of the Auditory Secretaries.—Art Union Magazine.

**Proprietary Surey.**—The Proprietary Surey, with a cargo valued at one hundred thousand dollars, sank near point Abato. The loss on cargo was covered by insurance. The boat was insured at \$10,000.

In the list of those who had goods on board we notice the names of Messrs. Townleys, and F. & J. Nirdlinger of this city.

A letter from Mr. Deano, the superintendent of the line, it appears, that the prime cause of the trouble is now ascertained to be in the northern insulators which were used on this line instead of glass. These insulators do not bear exposure to the weather, and when the glazing cracks off they are of little or no service. Mr. Deano writes that they will be replaced by glass insulators as early as practicable.

## FOREIGN NEWS.

## REVIVAL OF THE EUROPEAN.

The Europe arrived at Halifax on the 25th, with Liverpool dated to the 15th.

**Grain Market.**—Indian Corn quoted 28 to 30 cents white; 37 to 38 per quarter for yellow. Flax much altered in value—Western Canad and Philadelphia 25c. Gt. New 12 to 21c; Ohio 24 to 25c. No Indian meal in market.

Those who wish to obtain full reports of the proceedings of the Legislature would do well to subscribe for one of these papers—the money might be forwarded by the Representatives of Senators.

**Maine Election.**—The August (Maine) Age, says that complete returns of votes for Governor from all the towns and plantations in the State, show the election of Dr. Hubbard, the Democratic candidate for Governor, by a majority of 1,254 over all other candidates. The House will stand its democratic to 63 opposition—relatively 6 better than last year—Well done for Maine.

**Vermont.**—The Legislature of Vermont is now in session at Montpelier. The House chose a Whig Speaker by 37 majority, and the Whig officers were re-elected in the Senate by 14 majority. The vote for Governor was counted, when it was found that Governor Coolidge, the Whig candidate, lacked 36 votes of an election by the people. The two Houses then went into joint ballot for Governor and Gov. Coolidge was elected by a majority of 51. The other Whig State officers were elected by a similar majority.

**The CANAL.**—The Canal is now in operation to Tercie Haute, and boats laden with produce from that place have passed through here to Toledo.

**Fiting Pica Face.**—The New Albany Leader recommends that the law be so changed as to vote one vote for U. S. Senators. We desire the recommendation. If the Legislators were obliged to vote in that manner in all elections, so that their constituents could see what they did, a stop would be put to much of that which is done.

An eloquent letter from Kosciusko to Lord Palmerston, published in the English journals. By the news from Widdell that efforts had been made to urge the refugees to embrace Islamism, which were unsuccessful. Kosciusko, Dantzig and others swear

they will remain, and should be allowed to proceed to any part of the world.

A considerable number of refugees have been put aboard American private and French steamers, destined it is said for Greece.

An eloquent letter from Kosciusko to Lord Palmerston, published in the English journals. By the news from Widdell that efforts had been made to urge the refugees to embrace Islamism, which were unsuccessful. Kosciusko, Dantzig and others swear

they will remain, and should be allowed to proceed to any part of the world.

If there be no other objection to the admission of the State of Deseret than that of the religious belief of its inhabitants, let it be admitted as soon as possible, and the gleaning of its star on our national flag, will give evidence of the sincerity of our declaration that all men have a right to worship God according to the dictates of conscience, without being denied any political privilege thereto.

**Letter from Col. Weller.**

We find the following letter from Colonel Weller to M. G. Ryerson, Esq., of Hamilton, in the Telegraph of that place. It will be seen that up to Sept. 2 Col. Weller had not received official notice of his decapitation, by the cabinet who do the work of butchering in the name of Gen. Taylor:

SAN FRANCISCO, CALIFORNIA, August 26, 1849.

My Dear Michael—I was compelled to come up here on the last steamer, to attend to some public business, and consequently had no opportunity of overhauling the mail. I have no information from home, but presume there are letters for me at San Diego, which will get on my return. I go to-morrow to Monterey, and after remaining there some four or five days, will go down to San Diego. The reader is quite current here that I have been suspended. So far as my own personal interest is concerned, I have no levers to shift to使 this be true. The commissioning, however, will be broken up, and the boundary survey suspended for an indefinite period. I can readily find professional employment here, if I desired it, much more profitable than this boudoir service. It is true a great many lawyers are here, yet the business will prove very extensive.

This place is a very remarkable one. It has sprung up in a day. All nations are here represented. All orders of architecture known and unknown to the books, are here found. At least two thousand people live in tents. Everybody is actively engaged in business, and moving with the velocity of a locomotive, and yet hundreds are returning from the mines, sick, broken down and dispirited. They are bound to home. A very small number of those who have come here will be gainers in the end. The climate of San Francisco is about as bad as I have ever seen. Since I have been here (a week) our require wretched clothing, and an overcoat every day. At night three blankets at least are indispensable to one's comfort. The wind blows every day steadily from the north, and the dust is exceedingly annoying.

I go to-morrow to Monterey, and will there await the arrival of the steamer. If suspended, I may possibly remain in this country until next spring.

**Interacting History of an Adventure to California.**—France has initiated England.—Perpetual neutrality exists between the two powers. In consequence of the illness of M. Failloux, the discussion on the Italian question, and the difficulties between France and Russia, have been suspended. The French government, continuing nothing calculated to wound the feelings of Nicholas, has announced the determination to support the Porte against any exigency that would complicate the dignity of an independent government. Lord Palmerston sent paper instructions to Sir Caning, and placed the Mediterranean at his disposal.

**France.**—France has initiated England.—Perpetual neutrality exists between the two powers. In consequence of the illness of M. Failloux, the discussion on the Italian question, and the difficulties between France and Russia, have been suspended. The French government, continuing nothing calculated to wound the feelings of Nicholas, has announced the determination to support the Porte against any exigency that would complicate the dignity of an independent government. Lord Palmerston sent paper instructions to Sir Caning, and placed the Mediterranean at his disposal.

Residents of New York are requested to pay their subscriptions at the rooms, and all others at the offices of the Auditory Secretaries.—Art Union Magazine.

**Proprietary Surey.**—The Proprietary Surey, with a cargo valued at one hundred thousand dollars, sank near point Abato. The loss on cargo was covered by insurance. The boat was insured at \$10,000.

In the list of those who had goods on board we notice the names of Messrs. Townleys, and F. & J. Nirdlinger of this city.

A letter from Mr. Deano, the superintendent of the line, it appears, that the prime cause of the trouble is now ascertained to be in the northern insulators which were used on this line instead of glass. These insulators do not bear exposure to the weather, and when the glazing cracks off they are of little or no service. Mr. Deano writes that they will be replaced by glass insulators as early as practicable.

## Town Lots for Sale.

P. P. Bailey  
At Indiana Land and Tax Agency.  
An subscriber offers the following lots for sale in Fort Wayne, as follows:  
1. JAMES'S ADDITION—Lots numbered 37, 38, 39, 40, 33, 28, and 29.  
2. CITY ADDITION—Lot 13, Block 27; Lot 4, 5, 6, 7, and 8, of 55, part 59.  
3. W. G. S. ADDITION—Lot 13, Block 27; Lot 4, block 27; 3, lot 7, block 27; lot 36; lot 9, block 28; 3, lot 4, block 4.  
4. CITY'S ADDITION—Lots numbered 2, 3, and 30.  
5. They will be sold low furnish or on credit.  
JOHN HOUGH, Jr.  
Aug. 1, 1849.

## INDIAN LAND AND TAX AGENCY.

An subscriber, proprietor of the above Agency, will  
conduct the business of:

### GENERAL LAND AGENCY.

In the various branches, Dad tends his services to  
the public for the sale of Lands. Investments in  
real estate, Procuring of titles, and other services  
pertaining to General Land Agency Business,  
are provided with numerous and accurate maps of  
the country, and the state—has great knowledge and  
experience in the various departments, and is therefore prepared to furnish  
any information with regard to the same.  
He has a large number of titles, and will also  
procure any information required by the subscriber.  
For the former, he uses for all large bodies  
of land, well adapted to farming purposes, situated  
in the state.
